**Broward County, Fla.** — Due to the overwhelming demand for COVID-19 vaccination, the Florida Department of Health in Broward County registration site is experiencing problems. Please rest assured that we are working to fix these issues as quickly as possible to serve the community. When the website is fixed, if you find that appointments are not available, please check back often as we are increasing the number of vaccination sites for Seniors in Broward County in the coming weeks.

“We are sorry that the registration system did not work as we intended and this will be resolved soon. We recognize that our Senior Community is anxious to receive the vaccine. Please know that this is just the beginning of COVID-19 vaccination opportunities. As the local supply of vaccine increases, DOH-Broward along with our partners, are ready to vaccinate individuals ages 65 and older as well as additional priority groups as they are identified.” says Dr. Paula Thaqi, Director of the Florida Department of Health in Broward County.

Vaccinations will be available at no cost, by appointment only, beginning Sunday, January 3, 2021. Appointments for drive-thru vaccination sites can be made at <https://browardcovidvaccine.com>. Appointments cannot be made by telephone at this time.

**Mission:**

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

Ron DeSantis  
Governor

Scott A. Rivkees, MD  
State Surgeon General

Vision: To be the Healthiest State in the Nation

---

Individuals who receive a first dose of the COVID-19 vaccine will need to be in Broward County to receive the second dose of the same vaccine, 21 days later.

### **About the Florida Department of Health**

The Florida Department of Health, nationally accredited by the [Public Health Accreditation Board](#), works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
