Community Theater and Playwright-in-Residency Program	\$29,800	\$29,800	\$0	To provide for skills training and employment opportunities for local playwrights, actors and artists. The purpose of the Community Theater and Playwright in Residence Program (PIR) is to offer short-term access to available creative workspace at the Pompano Beach Cultural Center, access to the City's other cultural arts venues, and enhance the skills, knowledge and experience of local, regional, and national emerging playwrights through the On-Stage Community Theater Program. This residency will provide playwrights with space to work for a period not to exceed three (3) months to create and present small theatrical productions at the PBCC and its other cultural venues, which were shuttered during the COVID-19 pandemic. This program will also provide quality master classes, workshops, and acting classes. The Community Theater and PIR program aids in COVID-19 recovery by presenting live theater performances that generate revenue for the City and opportunities for unemployed/ underemployed/ underrepresented local, regional and national emerging playwrights and local artists.	Community Theatre performances have taken place in collaboration with local and regionally recognized playwrights, actors, and directors, including On Purpose by Ebony Payne-English (February 2, 2023) and the NCP Lab Short Play Festival presented by The New City Players on February 10 and 12, 2023. Future festival concepts include a city-wide Pompano Beach Celebration of the Arts Festival and the Indie Music Festival among others (i.e. Seafood Festival). In addition to providing arts and culture programming for the enjoyment and well-being of City residents, staff believes these festivals have excellent potential to increase economic development and cultural tourism in the City by creating local business and employment opportunities that are needed to support these events and attract visitors back to Pompano Beach.	Jazz in the Park took place in Spring 2022 with an estimated attendance of 1,000 people. This event was held at Hunters Manor Park. Activities included live jazz music, food trucks and vendors. Homelessness Prevention (2315/2326)	\$403,435	\$403,435	\$0		Expenditures include costs associated with services aimed at collaborating with Broward County and other social agencies to supplement those primary resources to address homelessness in the City. The City hired a new Housing and Social Services Manager in March 2022, as well as authorized the hiring of an additional homeless outreach deputy for the Broward Sheriff's Office (BSO). The BSO Homeless Outreach Deputy has assisted in getting 95 individuals off the streets. Housing and Social Services: Highlights to date include assisting in getting individuals accepted into emergency shelters (70), contacting field contacts, which includes interviewing homeless individuals to assess issues/needs (110), housing referrals of individuals/families (24), detox referrals (20), hospital referrals for mental/physical evaluation (15), family reunifications (5), removal of homeless encampments (8), issuing of 57 Community Court Notices to Appear and making 21 arrests. Since inception 146 individuals and families have been housed in various rehabilitation centers, transitional placement facilities, temporary/emergency shelters, hospitals, safe-haven, long-term care centers, and/or permanent supportive housing facilities in an effort for integration toward permanent placement. Among these success stories included 32 families (total members is 91) and 52 individuals that our Housing and Social Services Department housed. We supported 2 veterans in securing and maintaining housing, underscoring our commitment to service those who have bravely served our country. Community Court: On July 28, 2022, the City Commission approved the Community Court Program (the "Program"), the 2nd such Program in the State of Florida. The City of Pompano Beach has partnered with the Seventeenth Judicial Circuit Court with collaborative efforts from the Clerk of Courts, the Office of the Public Defender, the State Attorney's Office, Broward Sheriff's Office, and several other treatment providers, including Henderson Behavioral Health to establish the Program. Community Court is an innovative approach when handling certain low-level misdemeanor crimes and violations of municipal ordinances. It is designed to engage the community, help offenders, and assist individuals in need of social services and resources. The goal of Community Court is to reduce recidivism within the criminal justice system and address the underlying causes of homelessness rather than continue the cycle from the street, to jail, and then back to the streets. We partner with many organizations, including BSO, Broward County (HOSSD)Housing Option Solutions and Support Division, Henderson, and others, with the collaborative efforts of other providers. The partnerships help wrap-around services for individuals experiencing homelessness, and navigate through their housing, employment, education, food, and mental health care needs. The Program was launched in October 2022. Highlights to date include: <ul style="list-style-type: none"> <li>•Eighteen (18) Notices to Appear (NTAs) have been filed with the Court, and a total of 194 duplicate cases have been heard before the Court.</li> <li>• Of the cases pending before Community Court, 5 defendants have successfully completed the program, graduated, and had their case dismissed during the first quarter of 2024 reaching a total of 23 successful completions. The program has been instrumental in providing housing facilities to 22 cases, including both defendants issued an NTA and walk-in cases.</li> </ul>
Public Safety	\$12,895,450	\$12,895,450	\$0	To cover vital public safety expenditures. During the Covid-19 Pandemic public safety expenditures has been a vital component of supporting the response to this public health emergency. The ARPA regulations allows governments to utilize calculated revenue losses as a result of the Pandemic to cover public safety expenditures.	All funds have been expended to cover public safety expenditures.
Tourism/Hospitality Promotions	\$311,614	\$311,614	\$0	Advertising and marketing initiatives to promote the City and to jump start targeted industries impacted by Covid-19.	Google and Expedia campaigns have been implemented and a new Water Adventures Brochure has also been finalized. The Tourism and Marketing Departments are currently working on services to create a standalone tourism website. The website will be the number one place visitors and potential visitors will be directed to plan their stay in Pompano Beach. It will be the City's #1 marketing tool. Completed
SkatePark Community Park	\$1,586,280		\$1,586,280	Building a new skatepark will provide kids and teens from low-income households with a safe, accessible space for recreation, creativity, and social connection. It fosters a sense of belonging and offers a productive outlet for energy, helping to reduce risks associated with boredom or lack of engagement. The skatepark can boost mental and physical well-being by promoting physical activity and encouraging positive peer interaction. Additionally, it can indirectly benefit the community by reducing youth crime rates, increasing local pride, and attracting visitors, which could support nearby businesses. A skatepark isn't just a place to skate- it's an investment in youth empowerment and community growth.	City staff has now contracted with a contractor to design and construct the skatepark.
Water Taxi Subsidy	\$ 1,072,476	\$ -	\$ 1,072,476	Due to Covid-19, the water taxi has been shut down since March of 2020. A limited schedule was attempted over the 2020 Christmas Holidays but consumer confidence still hadn't produced sufficient ridership to continue. The water shuttle/ferry business was severely affected by the Covid-19 Pandemic and is slowly recovering. Due to taxis falling under United States Coast Guard jurisdiction Federal guidelines and restrictions were mandated, which further restricted the number of passengers. Having zero income and very little remaining resources to maintain the vessels for over a year caused issues that have to be addressed and inspected by the USCG before resuming operations. The taxi "Big Diamond" needs to be put in dry dock and repaired which will take at least a month. Another issue is USCG is concentrating on getting the cruise ship industry up and running and is putting off small vessel inspection until September. Best plan of action is to get the water taxi in for repair and inspection and begin service again in the fall when ridership normally increases.	City staff negotiated a contract with an operator and services are now up and operating.
