APPROVED BUDGET: TBD

PROJECT CONCEPT AND RENDERINGS

PROJECT OBJECTIVES

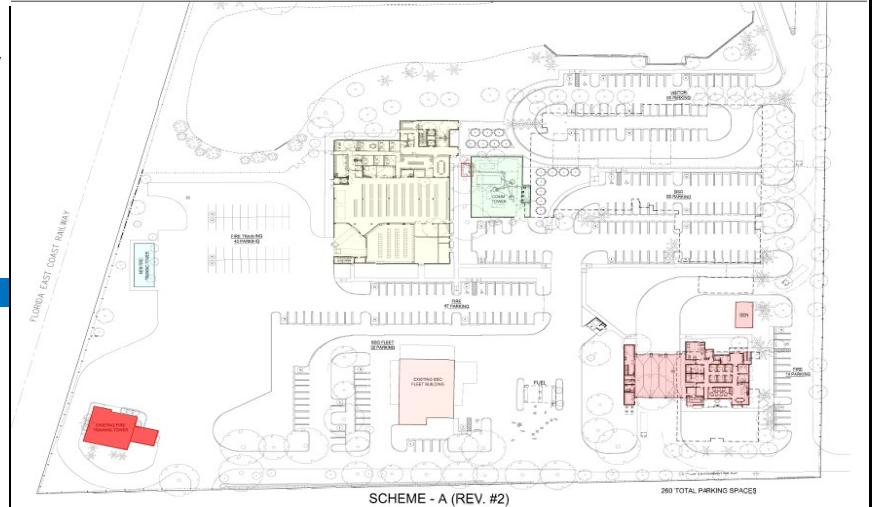

The Public Safety Complex, constructed in the 1980's, is located at 100 SW 3rd Street and 120 SW 3rd Street, which includes the Fire Administration (Fire Station #63) and Public Safety Building ( Broward Sheriff's Offices), and has reached it's end of life. Departments are keeping up with the changing times by operating with short term solutions so as to maintain support of the ongoing changing needs to the City of Pompano. Under this project, the facility that houses BSO will be demolished and combined with the new EOC building constructed as part of this GO Bond project.

PROJECT UPDATES

The new EOC building project is currently under review by the Planning & Zoning department (DRC). The project continues to move forward and is currently in the construction document phase. Additional approvals by the Architectural Advisory Committee (AAC) and final Planning & Zoning are expected to be completed by the end of this year. Upon final departmental approvals, the final construction documents are expected to be completed by April 2026. Permit submittal, approval, bidding, commission approval, and contract award will take place immediately following the completion of the construction documents. Construction is anticipated to commence in August 2026, with completion scheduled for December 2027.

PROJECT MILESTONES & SCHEDULE

Per above update, some milestones are anticipated but a detailed schedule is to be determined.

PROJECT LOCATION
