

## November-December 2022 Project Dashboard

### Project 19372 - NEW FIRE EMERGENCY OPERATING COMPLEX

#### Designer:

#### CMAR:

City of Pompano Beach

GO BOND DIRECTOR: FERNAND THONY, PE

PROJECT MANAGER: HECTOR GANDIA

CURRENT PHASE: CONSTRUCTION PERMITTING

DESIGN TEAM: SYNALOVSKI ROMANIK SAYE

CONSTRUCTION TEAM: KAUFMAN LYNN

APPROVED BUDGET: **\$18,810,000.00**

#### PROJECT RENDERINGS

#### PROJECT OBJECTIVES

Construct a new Fire Rescue and Logistics Building to include an Administrative Offices, Emergency Operations Center, Fire and EMS Logistics distribution center with storage space for EOC supplies, fire records and fire prevention, City Clerk storage and a parking garage to be located on the existing Public Safety Complex (BSO/Fire Station #63 site).

#### PROJECT UPDATES

Currently the project's site is being master planned to make the site more efficient and provide proper planning for future renovations/improvements. The actual EOC building has also been re-designed to help reduce costs. The parking garage is no longer part of the project and has been eliminated. Consultant is working on preliminary sketches to incorporate all of these items into one big campus site plan to present to staff for review when completed.

#### PROJECT SCHEDULE MILESTONES AND LOCATION

DESIGN PHASE: Ongoing

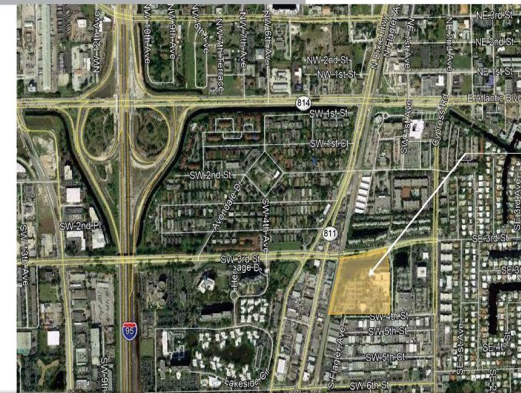

##### DESIGN PROCESS

1. Programming/Concept Phase
2. Schematic Phase
3. Design Development Phase
