#### PROJECT OBJECTIVES

The Public Safety Complex, constructed in the 1980's, is located at 100 SW 3rd Street and 120 SW 3rd Street, which includes the Fire Administration (Fire Station #63) and Public Safety Building ( Broward Sheriff's Offices), and has reached it's end of life. Departments are keeping up with the changing times by operating with short term solutions so as to maintain support of the ongoing changing needs to the City of Pompano. Under this project, the facility that houses BSO will be demolished and combined with the new EOC building constructed as part of this GO Bond project.

#### PROJECT UPDATES

Site is being redesigned to accommodate demolition of PSC building. The new EOC building will house Fire Administration Clerk Storage, and BSO staff. These two GO Bond projects are being combined into one.
