Internal Capture Reduction Calculations Summary (Existing)

Internal Capture Reduction Calculations Summary (Proposed)
1. **TRANSMITTAL INFORMATION**

   A. Letter of transmittal from municipal mayor or manager documenting that the local government took action by motion, resolution or ordinance to transmit a proposed amendment to the Broward County Land Use Plan. Please attach a copy of the referenced motion, resolution or ordinance. The local government’s action to transmit must include a recommendation of approval, denial or modification regarding the proposed amendment to the Broward County Land Use Plan.

   **Response:** To be provided

   B. Name, Title, Address, Telephone, and email of the local government contact

   David Recor  
   Development Services Director  
   City of Pompano Beach  
   Development Services Department  
   100 West Atlantic Boulevard  
   Pompano Beach, Florida 33060  
   Email: david.recor@copbfl.com  
   Phone (954)786-4664

   C. Summary minutes from the local planning agency and local government public hearing of the transmittal of the Broward County Land Use Plan amendment.

   **Response:** To be provided.

   D. Description of public notification procedures followed for the amendment by the local government including notices to surrounding property owners, advertisements in local publications, signage at proposed site, etc.

   **Response:** The City provided several opportunities for public information including hearings, workshops and community meetings. A 500’ mailing radius was used to distribute public notice for the Planning and Zoning Board hearing as required by Chapter 154 of the City’s Code of Ordinances. Newspaper advertisements were also provided in accordance with Chapter 154 of Pompano’s Code of Ordinances and as required by Chapter 163.

   E. Whether the amendment is one of the following:
      * Development of Regional Impact
      * Small scale development activity (Per Florida Statutes)
      * Emergency (please describe on separate page)

   **Response:** Amendment is not one of the listed
2. **APPLICANT INFORMATION**

A. Name, title, address, telephone, facsimile number and e-mail of the applicant.

- Pompano Park Holdings, LLC
  - PO Box 543185
  - Dallas, TX 75354
  - abe@cordish.com
  - 800-733-5444

- PPI INC.
  - 1800 SW 3 St.
  - Pompano Beach, FL 33069

B. Name, title, address, telephone, facsimile number and e-mail of the agent.

- Debbie Orshefsky, Esq.
  - Holland & Knight
  - 515 E Las Olas Blvd
  - Suite 1200
  - Fort Lauderdale, FL 33301
  - Debbie.orshefsky@hklaw.com
  - 954-468-7871

C. Name, title, address, telephone, facsimile number and e-mail of the property owner.

**Response:**

- Pompano Park Holdings, LLC
  - PO Box 543185
  - Dallas, TX 75354
  - abe@cordish.com
  - 800-733-5444

D. Applicant’s rationale for the amendment. The Planning Council requests a condensed version for inclusion in the staff report (about two paragraphs). Planning Council staff may accept greater than two paragraphs, if submitted in an electronic format.

**Response:** LIVE! Resorts Pompano is an innovative redevelopment project located at the Pompano Park Race Track/Isle Casino property which is designated as the Pompano Beach Park South Activity Center in the Broward County Land Use Plan and the City of Pompano Beach Land Use Plan. The revised activity center will encourage a live-work-play atmosphere all within the 221.65 acre (232.05 gross acre) site. The activity center is intended to encourage and provide a mix of uses including world class entertainment/retail/restaurant establishments, employment-generating office use, hotel/hospitality uses to support both the entertainment/commercial uses and
office uses and medium to high density residential with neighborhood-oriented retail to complete the live-work-play concept.

The project will be buffered on all sides with multi-purpose green/open space which provides for drainage, landscaping, nature, walking and bike trails. Also, centrally located within the LIVE! Resorts Pompano development is additional active open/green space and lake which connects the various mix of uses.

The LIVE! Resorts Pompano activity center encourages multiple modes of transportation including walking, biking, city shuttles, county mass transit and potentially rail, thus reducing the need and demand for individual vehicles and the need and demand to park all of the individual vehicles.

3. **AMENDMENT SITE DESCRIPTION**

   A. Concise written description of the general boundaries and gross acreage (as defined by BCLUP) of the proposed amendment.

   **Response:** The site is 232 acres and is generally describe as lying between Powerline Road on the west and the CSX railroad on the east, and bounded on the north by SW 3rd Street (Race Track Road) and Cypress Bend to the south.

   B. Sealed Survey, including legal description of the proposed to be amended.

   **Response:** The sketch and legal description is provided as [Exhibit A](#).

   C. Map at a scale clearly indicating the amendment’s location, boundaries and proposed land uses.

   **Response:** A map clearly indicating the amendment’s location, boundaries and proposed land use based on the City of Pompano Beach Land Use Map is provided as [Exhibit B](#).

4. **EXISTING AND PROPOSED USES**

   A. Current and proposed local and Broward County Land Use Plan designation(s) for the amendment site. If multiple land use designations, describe gross acreage within each designation. For Activity Center amendments, the proposed text indicating the maximum residential and nonresidential uses must be included.

   **Response:** The property is 232 acres and has a City of Pompano Beach Land Use designation of Regional Activity Center and the Broward County Plan designates the
property as Activity Center. The amendment is to amend the approved RAC and Activity Center uses which are indicated in Table 1.

**Table 1 - PROPOSED USES**

5. ANALYSIS OF PUBLIC FACILITIES

The items below must be addressed to determine the impact of an amendment on existing and planned public facilities and services. Provide calculations for each public facility and/or service. If more than one amendment is submitted, calculations must be prepared on an individual and cumulative basis.

A. Potable Water Analysis

1. Provide the potable water level of service per the adopted and certified local land use plan, indicating the adoption date of the 10 Year Water Supply Facilities Workplan.

Response: The City's Water Supply Plan (adopted January 27, 2015 and being updated in 2019) allows for a level of service of 191 gpcpd or less. The Plan concludes that there will be sufficient supply of potable water through 2025 which is the term of the current SFMWD Consumptive Use Permit. The actual 2018 adjusted raw water demand is approximately 16.26 MGD (15.06 MGD of finished water times 1.08) and is projected in the City’s Water Supply Plan to decrease to 15.43 MGD by 2025 through the expanded use of Pompano’s reclaimed water system and continued conservation efforts. The City’s Consumptive Use Permit with the SFWMD provides for a withdrawal capacity of 17.75 MGD through 2025. Due to the Reuse Water Credit the City receives for operating the Reclaimed Water Facility, the Raw Water Reserve surplus for 2025 will increase to 3.15 MGD which results in a comfortable excess of capacity compared to adjusted projected demand.

2. Identify the potable water facility serving the area in which the amendment is located including the current plant capacity, current and committed demand on the plant and planned plant capacity expansions, including year and funding sources. Identify the well field serving the area in which the amendment is located including the South Florida Water Management District (SFWMD) permitted withdrawal and expiration date of the SFWMD permit.

Response: The majority of the City is provided with potable water from the City’s water system. The City's Lime Softening Plant (40 MGD) and Membrane Plant (10 MGD) have a total design capacity of 50 MGD and a 2018 finished water demand of 15.06 MGD.

The western wellfield serves the amendment area site. The City’s Water Use Permit with the SFWMD, valid through the year 2025, provides for 17.75 MGD withdrawal. The South Florida Water Management District issued a Use of Water Permit No. 06-00070-W on September 14, 2005 to the City of Pompano Beach.
Permitted capacity for the City of Pompano Beach wellfield was 19.4 MGD through 2010. Permitted capacity after 2010 is 17.75 MGD. The permit expires in September of 2025. As of August 10, 2010, the annual allocation shall not exceed 6,748 million gallons. For the 12-months ending November 2018, the annual finished water was 5,498 million gallons.

The City began operating a Water Reuse Facility in 1989. The initial reuse capacity was 2.5 MGD utilizing effluent removed from the Broward County North Regional Wastewater Plant outfall pipe prior to discharge. The City completed an expansion of the Reuse Facility to 7.5 MGD capacity in 2002.

3. Identify the net impact on potable water demand, based on adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.

**Response:** The potable water demand as illustrated in Table 6 compares the approved Regional Activity Center uses to the proposed amendment. The net estimated demand increase is 544,441 gallons/day.

</tbody>
</table>

**Net Increase** | 544,441 GPD

4. Correspondence from potable water provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.

**Response:** The letter from the potable water provider is included as Exhibit C.
B. Sanitary Sewer Analysis

1. Provide the sanitary sewer level of service per the adopted and certified local land use plan.

Response: The level of service in the adopted, certified land use element of Pompano’s Comprehensive Plan is 15.71 million gallons per day in design capacity for the Pompano collection and distribution system and 84 million gallons per day in Design Capacity for the Broward County North District Regional Wastewater Treatment Plant, of which Pompano has a large user agreement for 17 million gallons per day of treatment capacity.

2. Identify the sanitary sewer facility serving the area in which the amendment is located including the current plant capacity, current and committed demand on the plant and planned plant capacity expansions, including year and funding source.

Response: The City of Pompano Beach provides for sanitary sewer collection only. The City’s collection system consists of gravity lines, pump stations and force mains. There are no specific waist water collection system improvement plans for the area at this time.

All wastewater collected is pumped to the Broward County North District Regional Wastewater Treatment Plant, which is located within the City. The County Plant receives wastewater from Pompano, as well as other County municipalities. The Plant has a licensed treatment capacity of 95 MGD, which has been reserved by large users, including the City of Pompano Beach. According to the Broward County Domestic Wastewater Program summary for 2016 (the latest annual report posted online), the reserved capacity at the NRWWTP was 87.015 MGD which is 91.6% of the total licensed capacity.

The City has a Large User Agreement with Broward County to provide treatment for 17 million gallons per day of sanitary sewer flow at the North Regional Wastewater Treatment Plant (NRWTP). This is equal to less than 18% of the NRWTP treatment capacity.

The City’s average daily demand in 2018 was 14.7 million gallons per day, which is 86.5% of the WWTP Plant’s capacity (note that Pompano is currently experiencing additional daily flow from the water plant concentrate line on average of just over 1 MGD. This will continue until the plant has the new deep well installed. Typical flow will normalize between 12.5 and 13.5 MGD). This leaves 2.3 MGD for future growth (which will increase to 3.5 MGD as soon as the deep well comes online) and full buildout of the project will require 544,441 net new gallons per day of net new wastewater treatment capacity over what was previously approved (Table 6).
The Sewer System is under capacity and funded from user fees, the City, therefore, will be able to maintain its sanitary sewer LOS standards with the proposed redevelopment.

3. Identify the net impact on sanitary sewer demand, based on the adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.

Response: The sanitary sewer demand as illustrated in Table 7 compares the approved Regional Activity Center uses to the proposed amendment. The net estimated demand increase is 544,441 net new gallons/day. Plant capacity shown on Table 8.

*Less the 1 mgd from the water plant concentrate line which will cease once the deep well is operational.

4. Correspondence from sanitary sewer provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the sanitary sewer provider is included as Exhibit C.

C. Solid Waste Analysis

1. Provide the solid waste level of service per the adopted and certified local land use plan.

Response: The following level of service standards are provided in the City of Pompano Solid Waste Element:

   Residential: 8.9 lbs. per unit per day
   Hotel: 8.9 lbs. per unit per day
   Industrial/Commercial:
   Factory/Warehouse: 2 lbs per 100 sq.ft. per day
   Office Building: 1 lb per 100 sq.ft. per day
   Department Store (Retail): 4 lbs per 100 sq.ft. per day
   Supermarket: 9 lbs per 100 sq.ft. per day
   Restaurant: 2 lbs per meal per day
   Drug store: 5 lbs per 100 sq.ft. per day

Source: City of Pompano Beach Comprehensive Plan 2010, Solid Waste Element and Broward County Solid Waste Management.

2. Identify the solid waste facilities serving the service area in which the amendment is located including the landfill/plant capacity, current and committed demand on the landfill/plant capacity and planned landfill/plant capacity.

Response: The City contracts with Waste Management, Inc., to collect and dispose of solid waste material and garbage within the City. The City’s contract with Waste Management guarantees 100% of all solid waste generated will be disposed of through 2022. The majority of material collected within the City is transported to the Monarch Hill Landfill. Waste Management claims it has
another 13 years of useful life (2035) with a remaining capacity of 19 million cubic yards and an annual average consumption of 1.5 million cubic yards.

3. Identify the net impact on solid waste demand, based on the adopted level of service, resulting from the proposed amendment. Provide calculations, including anticipated demand per square foot or dwelling unit.

**Response:** Table 9 compares the approved uses in the Regional Activity Center to the proposed amendment. Analysis indicates that there will be a decrease in the solid waste demand by 147,770 pounds per day.

Net Decrease: -147,770
4. Correspondence from the solid waste provider verifying the information submitted as part of the application on items 1-3 above. Correspondence must contain name, position and contact information of party providing verification.

**Response:** The letter from the solid waste provider is included as Exhibit D.

D. **Drainage Analysis**

1. Provide the drainage level of service per the adopted and certified local land use plan.

**Response:** The City has adopted the following level of service standards for stormwater:

- **Building Structures**
  The flood level shall not exceed the finished floor elevation of all building structures within the study area during the 100-year, 3-day storm event.

- **Roadways and Parking Lots**
  Stormwater ponding shall not encroach onto any roadway centerlines during the 10-year, 1-day storm event. Stormwater ponding shall not encroach onto any roadway edge of pavement during the 5-year, 1-day storm event.

- **Outfall Discharges**
  The outfall discharge shall not exceed the allowable peak discharge during a 25-year, 3-day rainfall event as defined by the existing permit requirements. If the existing outfalls do not have a maximum discharge assigned by existing permits, the regulatory agencies will require “pre-development” versus “post-development” discharge analysis to ensure the stormwater discharge into adjacent surface waters does not increase after the proposed construction.

2. Identify the drainage district and drainage systems serving the amendment area.

**Response:** The amendment area is located within WCD#4. On-site facilities are operated by the property owner. The secondary drainage system is operated by the City of Pompano Beach which is linked to the primary system that is the responsibility of the South Florida Water Management District.

3. Identify any planned drainage improvements, including year, funding sources and other relevant information.
Response: The City adopted a Stormwater Management Master Plan in 2013. No improvements are proposed in the vicinity of the RAC which is shown within the SW drainage basin in the SMMP.

4. Indicate if a Surface Water Management Plan has been approved by, or an application submitted to, the SFWMD and/or any independent drainage district, for the amendment site.

Identify the permit number(s), or application number(s) if the project is pending, for the amendment site. If an amendment site is not required to obtain a SFWMD permit, provide documentation of same.

Response: Existing permits have been issued:

- SFWMD permit No. 06-00193-S
- BCEPGMD License No. SWM2005-061-0

5. If the area in which the amendment is located does not meet the adopted level of service and there are no improvements planned (by the unit of local government or drainage authority) to address the deficiencies, provide an engineering analysis which demonstrates how the site will be drained and the impact on the surrounding properties. The information should include the wet season water level for the amendment site, design storm elevation, natural and proposed land elevation, one hundred year flood elevation, acreage of proposed water management retention area, elevations for buildings, roads and years, storage and runoff calculations for the design storm and estimated time for flood waters to recede to the natural land elevation.

Response: No drainage issues have been identified on the site. The property will be designed to meet all stormwater management related regulations.

6. Correspondence from the local drainage district verifying the information submitted as part of the application on items 1-5 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The letter from the City who is the drainage utility provider is included as Exhibit E.

E. Recreation and Open Space Analysis

1. Provide the recreation level of service per the adopted and certified local land use plan.
Response: The City’s level of service standard for parks is 5 acres per 1,000 residents (2-acres per 1,000 for neighborhood parks; 1 acre per 1,000 for community parks and 2 acre per 1,000 for urban open spaces). Pompano only mitigates, through impact fees, the neighborhood and community park impacts because the current LOS for urban open spaces is sufficient to serve more than the buildout population. In accordance with the City’s Parks Master Plan, the City had 775 acres of qualified park properties which could accommodate a total of 155,000 people. Since the parks master plan was adopted, the property associated with the Elks Club and the Palm Aire Lakes Park have been added to the parks inventory so total park acreage is now 882.14 acres which can accommodate up to 176,480 people based on the 5 acre per 1,000 LOS. This population is well in excess of the projected buildout population.

The County requires every city to maintain a minimum level of service of 3 acres of parks per 1,000 residents.

2. For amendments which will result in an increased demand for “community parks” acreage, as required by the Broward County Land Use Plan, an up-to-date inventory of the municipal community parks inventory must be submitted.

Response: The park inventory of the parks that the County qualifies for inclusion for determining compliance with the 3 acres/1,000 standard for recertification of amendments to the City’s land use plan is provided in Exhibit F.

3. Identify the net impact on demand for “community parks” acreage, as defined by the Broward County Land Use Plan, resulting from this amendment.

Response: The additional residential units will increase the need for community parks by a total of 19.1 acres (((2,800 x 2.27)/1,000) x 3). It is anticipated that the park requirement will be accomplished by payment of impact fees at time of development.

4. Identify the projected “community parks” acreage needs based on the local government’s projected buildout population.

Response: The City’s buildout population is currently 150,955 which requires 452.9 acres of parks per the County’s 3-acre per 1,000 standard and 754.8 acres
per the City’s 5-acre per 1,000 standard. Both standards are being met based on the qualifying park acreage of the County and City respectively. These totals include the 1,300 units vested in the RAC. The amendment increases the number of units by 2,800. Based on 2.27 people per unit @ 3 acres per 1,000 people, the community park requirement would be an additional 19.1 acres and the updated buildout population will be 157,311 which requires a total of 472 acres of parks based on the County’s 3-acre per 1,000 standard. The City has more than adequate parks to meet this level of service standard.

5. As applicable, describe how the local government and/or applicant are addressing Broward County Land Use Plan Policies 2.5.4 and 2.5.5. (a. through e.) regarding the provision of open space.

Response: POLICY 2.5.4 states the following: Broward County shall strongly encourage the preservation of open space areas. Amendments to the Broward County Land Use Plan which would result in the loss of open space shall be strongly discouraged and be required to address how open space and recreation needs of the existing and projected residents of the community will be met, including how the negative impacts of the loss of open space on surrounding neighborhoods will be minimized or mitigated.

The proposed amendment will not result in a loss of open space. The proposed mixed use project will provide generous open space and recreational uses for residential units in the project which include a recreational lake, extensive open areas and walking trails.

POLICY 2.5.5 Amendments to the Broward County Land Use Plan containing golf courses, including closed golf courses, shall address the following: a. The impact of the loss of open space on the surrounding residential areas. The loss of open space must be mitigated through provision of parks and open space to serve the surrounding neighborhood. b. Management of storm water retention taking into account the extent to which the golf course provided storm water retention for the surrounding development and how this will be mitigated, along with any additional storm water impacts created by the new development. c. Minimization of the impact on natural resources including wetlands, lakes, aquifer recharge areas and the tree canopy, including any historic trees on the site. d. Mitigation of environmental contamination. The level of environmental contamination must be determined by conducting a Phase 1 environmental assessment. A Phase 2
environmental assessment may be required based upon the findings of the Phase 1 assessment. e. Integration of the proposed development with the surrounding areas including how the development will tie into the existing neighborhoods through roads, sidewalks, parks/open space and greenways.

This policy does not apply to the site.

F. Traffic Circulation Analysis

Please be advised, if required, that the Planning Council staff will request from the Broward Metropolitan Planning Organization (MPO), as per Policy 2.14.6 of the BCLUP, an analysis of the impacts of the amendment to the regional transportation network. The MPO will charge a separate cost-recovery fee directly to applicants for technical assistance requested by the Planning Council for the preparation and review of the land use plan amendment transportation analysis. Please contact the MPO for additional information regarding this fee.

1. Identify the roadways impacted by the proposed amendment and indicate the number of lanes, current traffic volumes, adopted level of service and current level of service for each roadway.

Response: Major roadways serving the amendment site include:

- Atlantic Boulevard
- Powerline Road
- McNab Road
- Andrews Avenue
- Cypress Creek Road

The level of service standards maintained by Broward County and the City of Pompano Beach are summarized below in Table 1.

Broward County

The amendment site is located within the Northeast Transportation Concurrency District which is subject to the provisions of the Broward County Transportation Concurrency System (TOCS). Therefore, the level of service standard determined by the Broward County Development Review Services was considered for this analysis. The level of service standard for all roadways within the impact area is LOS D for long range planning purposes.

City of Pompano Beach

The City of Pompano Beach recognizes the County’s level of service (LOS) D standards in
its adopted Comprehensive Plan. In addition, the level of service standard, corresponding service volumes, existing (2017) peak hour volume and existing (2017) level of service for the surrounding roadway network are summarized in Table 1.

**Table 1: Existing 2017 Conditions LOS Analysis**

2. Identify the projected level of service for the roadways impacted by the proposed amendment for the long-range planning horizons. Please utilize average daily and P.M. peak hour traffic volumes per Broward County Metropolitan Planning Organization plans and projections.

**Response:** The projected level of service for the short-term (i.e., 2024) planning horizon was determined using linear interpolation of the currently available 2017 peak hour volumes and the long-term (2040) currently available peak hour volumes to obtain the short-term peak hour volume. Once the interpolated value was obtained, FDOT’s 2013 *Quality/Level of Service Handbook* was used to find the appropriate level of service standard. The level of service for the short-term planning horizon is summarized in Table 2.

Long-term (2040) projected level of service was determined using 2040 traffic volume forecasts obtained from the Broward Country Metropolitan Planning Organization (MPO). The level of service for the long-term planning horizon is summarized in Table 3.

3. Planning Council staff will analyze traffic impacts resulting from the amendment. The applicant may provide a traffic impact analysis for this amendment – calculate anticipated average daily and pm peak hour traffic generation for the existing and proposed land use designations. If the amendment reflects a net increase in traffic generation, identify access points to/from the amendment site and provide a distribution of the additional traffic on the impacted roadway network for the long-range planning horizon.
Response: The trip generation potential for the amendment site was calculated using rates reported by the Institute of Transportation Engineers’ (ITE) *Trip Generation Manual*, 10th Edition. The existing land use allows for a maximum of 1,822,986 square feet of recreational use, 764,478 square feet of retail use, 951,350 square feet of office use, and 1,300 multi-family residential units. The proposed development includes 1,000,000 square feet of recreational use, 300,000 square feet of retail use, 2,000,000 square feet of office use, and 4,100 multi-family residential units.

The site trip generation potential was evaluated for multipurpose recreational facility (ITE land code: 435), general office building (ITE land code: 710), shopping center (ITE land code: 820), and multifamily housing (mid-rise) for both the existing and proposed maximum allowable development programs consistent with previous transportation analysis for the existing Regional Activity Center (RAC). Utilizing these land uses, the weekday P.M. peak hour trip generation was used for the analysis. In this case, 1,200 less ingress trips are expected to be generated into the proposed area and 468 less egress trips are expected to be generated out of the proposed area, resulting in 1,668 less total trips during the P.M. peak hour. The generation rates and results of the proposed land use trip generation calculations are presented in Tables 4 and 5. Detailed trip generation calculations are contained in Appendix A.

4. Provide any transportation studies relating to this amendment, as desired.

**Response:** Supplemental transportation studies relating to this amendment are not provided.

G. **Mass Transit Analysis**

1. Identify the mass transit modes, existing and planned mass transit routes and scheduled service (headway) serving the amendment area within one-quarter of a mile.

**Response:**

*Existing Broward County Bus Transit Service*

- **Broward County Transit Route 14** operates on Powerline Road linking the site to Cypress Creek Tri-rail – Broward Central Terminal and North to Hillsboro Boulevard. Route 14 operates on half hour headways.

- **Broward County Transit Route 42** operates on Atlantic Boulevard linking from SR A1A on the east to Coral Ridge Drive on the west. It makes stops at Coral Square Mall and Walmart Supercenter and the Northeast Transit Center. Route 42 operates on half hour headways.

*Existing City of Pompano Beach Community Red Transit Route*

- **Red Route (BCT 705)** This community bus service route is provided by both the City of Pompano Beach and Broward County Transit. The route connects the site to Palm Aire and points along Dr. Martin Luther Kling Jr. Blvd. to the Northeast Transit Center.

- Proposed Improvements
According to the Broward County Transit (BCT) Penny Surtax Plan, there are not currently any proposed improvements for the existing Community Bus or Broward County Bus Transit Service in the vicinity of the subject property.

The City of Pompano Beach is in the process of adopting a ride-share ordinance to facilitate various ride-share programs including services similar to the familiar Zip Car concept, the use of shuttles and multi-passenger electric carts such as those offered by “Freebee” and “The Free Ride”.

2. Describe how the proposed amendment furthers or supports mass transit use.

Response: The site is a major mixed-use activity center and currently takes advantage of mass transit with bus stops on Powerline Road adjacent to the site and a local community shuttle which circulates on site and connecting to adjacent neighborhoods and transit opportunities. The proposed amendments will be able to generate additional ridership on existing routes and applicant will work with Mass Transit and the City of Pompano Beach to enhance local shuttle service within the project.

Correspondence from transit provider verifying the information submitted as part of the application on items 1-2 above. Correspondence must contain name, position and contact information of party providing verification.

Response: The mass transit verification letter from Broward County Transit is provided as Exhibit G.

H. Public Education Analysis

Please be advised that the Planning Council staff will request from The School Board of Broward County (SBBC), as per Policy 2.15.2 of the BCLUP, an analysis of the impacts of the amendment on public education facilities. Per SBBC Policy 1161, the applicant will be subject to a fee for the analysis and review of the land use plan amendment application. The applicant should contact the SBBC to facilitate this review and determine the associated fees.

1. Public School Impact Application

Response: Applicant has submitted request for review of school Impact Verification
2. The associated fee in the form of a check made payable to the SBBC.

Response: Public School Impact Application and fee have been submitted to the Planning Council.

6. ANALYSIS OF NATURAL AND HISTORIC RESOURCES

Indicate if the site contains, is located adjacent to or has the potential to impact any of the natural and historic resource(s) listed below, and if so, how they will be protected or mitigated. Planning Council staff will request additional information from Broward County regarding the amendment’s impact on natural and historic resources.

A. Historic sites or districts on the National Register of Historic Places or locally designated historic sites.

Response: There are no listed historic sites or districts associated with the site, see Exhibit H for letter From State of Florida.

B. Archaeological sites listed on the Florida Master Site File.

Response: Site is not listed on the Florida Master Site File.

C. Wetlands.

Response: No wetlands are located within the subject property.

D. Local Areas of Particular Concern as identified within the Broward County Land Use Plan.

Response: The subject property is not within an area designated as a Local Area of Particular Concern by the Broward County Land Use Plan.

E. Priority Planning Area map and Broward County Land Use Plan Policy 2.21.1 regarding sea level rise.

Response: The site is not within a Priority Planning Area for sea level rise.

F. “Endangered” or “threatened species” or “species of special concern” or “commercially exploited” as per the Florida Fish and Wildlife Conservation Commission (fauna), the U.S. Fish and Wildlife Service (flora and fauna), or the Florida Department of Agriculture and Consumer Services (fauna). If yes, identify the species and show the habitat location on a map.

Response: The subject property is developed, as well as surrounding areas. There has been no evidence to date of any endangered, threatened or species of special concern associated with the subject parcel.

G. Plants listed in the Regulated Plant Index for protection by the Florida Department of
Agriculture and Consumer Services.

**Response:** The subject property is nearly 100% developed. There has been no evidence to date of any plant species listed on the index being located on the subject property.

H. Wellfields – indicate whether the amendment is located within a wellfield protection zone of influence as defined by Broward County Code, Chapter 27, Article 13 “Wellfield Protection.” If so, specify the affected zone and any provisions which will be made to protect the wellfield.

**Response:** The amendment site is not located within a Wellfield Protection Zone.

I. Soils – describe whether the amendment will require the alteration of soil conditions or topography. If so, describe what management practices will be used to protect or mitigate the area’s natural features.

**Response:** Soil is suitable for development. On-site cut and fill will utilize best management practices required by the water management design engineering standards.

J. Indicate if the amendment site fronts the ocean or would impact access to public beaches. If so, describe how public beach access will be addressed.

**Response:** Not Applicable.

7. **AFFORDABLE HOUSING**

Describe how the local government is addressing Broward County Land Use Plan Policy 2.16.2 consistent with Article 5 of this Document.

**Response:** In accordance with Policy 2.26.2(a) the City of Pompano Beach in Chapter 154.80 of the Land Development Code provides options for meeting the Affordable Housing requirements by incorporating affordable housing units into the development or paying into the Affordable Housing Trust Fund. The applicant will provide 15% of the units as affordable by either developing the units or paying the City of Pompano Beach fee per unit of $2,333.00/ unit.

8. **LAND USE COMPATABILITY**

Describe how the amendment is consistent with existing and planned future land uses in the area (including adjacent municipalities and/or county jurisdictions). Identify specific land development code provisions or other measures that have or will be utilized to ensure land use compatibility.
Response: The site is industrial to the north and east and residential to the west across Powerline Road and to the south medium density Residential. The site will be designed that the activity centers will be focused to the north and center of the site away from residential to the south and west. The proposed project residential will be positioned as a buffer to residential to the south increasing compatibility. Site designs will incorporate the following principles;

- Incorporate berms, fences, walls or other appropriate edge treatments along with building design elements that respect existing development.
- Building setbacks and heights that address compatibility
- Service areas that do not impact adjacent residential development.

9. **HURRICANE EVACUATION ANALYSIS**

(Required for those land use plan amendments located in a hurricane evacuation zone as identified by the Broward County Emergency Management Division).

Provide a hurricane evacuation analysis based on the proposed amendment, considering the number of permanent and seasonal residential dwelling units (including special residential facilities) requiring evacuation, availability of hurricane shelter spaces, and evacuation routes and clearance times. The hurricane evacuation analysis shall be based on the best available data/modeling techniques as identified by the Broward County Emergency Management Division.

Response: Site is not within a Hurricane Evaluation Zone. The proposed hotel rooms will help take pressure off public shelters by providing alternative shelter options during an evacuation.

10. **REDEVELOPMENT ANALYSIS**

Indicate if the amendment is located in an identified redevelopment area (i.e., Community Redevelopment Agency, Community Development Block Grant). If so, describe how the amendment will facilitate redevelopment and promote approved redevelopment plans.

Response: Site is not part of a redevelopment area.

11. **INTERGOVERNMENTAL COORDINATION**

Indicate whether the proposed amendment site is adjacent to other local governments. If so, please provide additional copies for the notification and/or review by adjacent local governments.
Response: The site is not adjacent to another local government.

12. DESCRIBE CONSISTENCY WITH HIGHLIGHTED REGIONAL ISSUES AND POLICIES OF THE BROWARD COUNTY LAND USE PLAN

The proposed amendments to the previously approved Pompano Park South Regional Activity Center on the Pompano Land Use Plan is now designated as Pompano Beach Pompano Park South Activity Center in the Broward County Land Use Plan (Broward Next) are consistent with the following “Visions” set forth in BrowardNext and Goals, Objectives and Policies in the City Land Use Plan:

**Climate Change Resilience Vision**

Strategy CCR-1: Mitigate the effects of climate change by reducing greenhouse gas emissions by 2% per year.

- Provide Electric Vehicle charging stations
- Integrate alternative transportation options in overall design
- Energy efficient building design
- Master plan design that links uses in the project to encourage walking, bicycling and transit.

Strategy CCR-3: Maintain adequate water supply through efficiency and conservation efforts and increase resilience of natural systems through water resource management.

- Best management practices in stormwater design will enhance resiliency by improved water quality.
- Stormwater design will provide adequate surface water storage ensuring accommodation for rainfall and groundwater level rise.

**Targeted Redevelopment Vision**

Strategy TR-1: Prioritize new development and redevelopment to existing and planned downtowns and major transit corridors and transit hubs.

- Amendment site is an Activity Center located on and adjacent to major transportation corridors.
- Amendment site is currently served by transit and intends to incorporate additional multi-modal options within the site.
- A tri-rail station will also be explored.
Multi-Modal Vision

Strategy MM-2: Recognize and address the transportation and housing connection.

- Proposed amendments will provide a large number of employment opportunities within the site. The employment generation together with provision of residential options and internal multi-modal opportunities supports the vision.

World-Class Natural Resource Protection and Enhancement Vision

Strategy EP-3: Preserve and protect Broward County’s natural environment through County and local environmental regulatory programs and well-planned patterns of growth and development.

- Drainage plans will preserve, enhance and create surface waters and minimize direct discharge into such bodies of water through pre-treatment methods.
- Drainage plans will provide groundwater quality through the provision of drainage and stormwater management systems, minimization of surface water run-off, minimization of soil erosion and prevention of salt water intrusion.
- Provide minimum floor elevations for structures and minimum crown elevations for roads based on projected conditions from sea level rise.
- Promote alternative transportation modes to reduce emissions.
- Eliminate exotic vegetation and utilize native vegetation as much as possible.

Affordable Housing Vision

Strategy AH-1: Support sustainable funding sources to develop and/or rehabilitate affordable housing.

- Project will comply with the City of Pompano Beach Affordable Housing policies.

Disaster Planning and Post Disaster Redevelopment Vision

Strategy DP-5: Residential densities within the mandatory hurricane evacuation zones shall not negatively impact the hurricane evacuation clearance standards.

- Amendment site is not in a Hurricane Evacuation Zone and will not affect any evacuation times.
- Hotel rooms proposed with this project could help alleviate impacts on public shelters by providing alternatives to public shelters for those evacuees from the coastal evacuation zones that can afford to say in a hotel to ride out the storm.
Pompano Beach Comprehensive Plan

Goals, Objectives and Policies

Goal 01.00.00 The attainment of a living environment which provides the maximum physical, economic and social well-being for the City and its residents through the thoughtful and planned use and control of the natural and man-made environments that discourages urban sprawl, is energy efficient and reduces greenhouse gas emissions.

01.04.01 The Planning Department shall support and promote the intermix of residential and commercial uses along major traffic corridors, where mass transit is available, through the allocation of flex and reserve units and approval of land use plan map amendments allowing for residential developments.

01.16.01 The City shall emphasize re-development and infill, which concentrates the growth and intensifies the land uses consistent with the availability of existing urban services and infrastructure in order to conserve natural and man-made resources Objective Regional Activity Center

01.17.00 The Regional Activity Center Land Use Category encourages attractive and functional mixed living, working, shopping, education and recreational activities.

Policies

01.17.01 The Land Development Regulations shall provide at least one zoning district that facilitates attractive and functional mixed living, working, shopping, education and recreational activities for application to Regional Activity Centers.

01.17.02 Regional Activity Centers shall include a mix of land uses that are regionally significant and should include residential uses when they are complimentary to other uses within the RAC.

01.17.03 The Land Development Regulations shall encourage redevelopment within Regional Activity Centers by reducing the number of required off-street parking spaces proportionate to the parking efficiency achieved with various mixes of uses, as well as greater modal shift to transit, walking and bicycling. In addition to providing for shared parking standards, the Land Development Regulations shall provide for offsite and on-street parking allowances, the use of centralized parking, and other innovative urban parking strategies within Regional Activity Centers.

01.17.04 Regional Activity Centers should provide substantial housing opportunities in order to allow people to both live and work within the area.
01.17.05 Quality, affordable housing opportunities shall be included as a functional component of Regional Activity Centers that allow for residential use.

01.17.06 The Land Development Regulations shall require that Regional Activity Centers provide safe and convenient pedestrian access to transit stops, and safe and secure bicycle parking facilities.

01.17.07 To enhance pedestrian movement and safety, the Land Development Regulations shall provide for separation of pedestrian and vehicular traffic within the Regional Activity Centers.

01.17.08 Urban public park land and/or open space shall be included as a functional component of Regional Activity Centers.

01.17.09 The City shall adopt design guidelines that require transit shelters in the Regional Activity Center to provide safe and comfortable service and to encourage transit usage.

01.17.10 The City shall adopt performance and design standards within its land development regulations that provide for an interconnected street network, a safe and attractive pedestrian environment and multi-modal transit connections for Regional Activity Centers.

01.17.11 The City shall maintain design standards within its land development regulations to ensure compatibility between existing and planned land uses within and adjacent to Regional Activity Centers.

SOLID WASTE PROVIDER LETTER
March 20, 2019

Mr. James Kahn
Keith
2312 S Andrews Ave.
Fort Lauderdale, FL 33316

RE: Live Resorts

Dear Mr. Kahn,

I have reviewed the information you sent me regarding the land use amendment for the proposed project in Pompano Beach. Per your letter, I wanted to inform you that Waste Management's local disposal facilities have the adequate volume space to safely accommodate the anticipated waste generated by the proposed project. In addition, Waste Management's collections operations have sufficient equipment available to provide the required services to this project during all the developmental phases from construction to final occupation by residents and tenants.

Waste Management is the authorized municipal hauler for the City of Pompano Beach, please contact us as soon as you are ready to begin construction at this site so that Waste Management can provide the containers that you will need during this project.

If you should have any additional, questions please do not hesitate in giving me a call.

Thank you,

Luigi Pace
Government Affairs Manager

**Total** 138.94

**Grand Total** 619.04

## Broward County owned lands

*The City can use 10% (up to 10 acres) of the County-owned park land in the City’s total park acreage (62.95*10% = 6.295 acres)*

- Broward County Environmental Land Crystal Lake Sand Pine Scrub Natural Preserve 3110 block of NE 3rd Avenue
- Broward County Environmental Land Pompano Highlands Natural Preserve 4200 Block east of FEC RR
Notes:
a. Property on Dr. Martin Luther King Jr. Blvd. acquired October 1998 from Sara Harry @ $75,000 for 0.813 acres.
b. Liberty Park property acquired from School Board October 1999 @ $35,000 for 1.13 acres.
c. Avondale Park site acquired from Gerry Gorman December 1999 @ $210,000 for 2.5927 acres.
d. Cresthaven Park acquired by annexation effective September 2000 for 1.43 acres
e. Cresthaven Elementary School acquired by annexation effective September 2000 for 2.3 acres.
f. Removed CRA Plat Park 2.3 acres.
g. Added Canal Pointe Park of 10.744 acres, acquired
h. Added Hunters Manor, 8.26 acres, acquired July 21, 2000 from Hunter-8 & Landco IV for $423,915.14
i. Removed Carver Homes Park of 17.2 acres after Land Use Plan amendment, passed July 24, 2001, Ordinance 2001-77.
j. Added Cresthaven Park (1.4 acres) and Cresthaven Elementary School (2.3 acres) after Land Use Plan amendment passed January 22, 2002 Ordinance 2002-31.
k. Added 8.3 acres Hunter’s Manor Park purchased through Broward County Safe Parks and Land Preservation Bond Program and removed old Hunters Manor Park (8.3 acres).
l. Northwest Multi-Purpose Center 13,526 sq.ft on 2.92 acres, southwest corner of NW 6th Avenue and Dr. Martin Luther King Jr., Blvd.
m. Southwest Multi-Purpose 13,503 sq.ft. on 3.46 acres, SW 36th Avenue and W. Palm Aire Dr.
n. Canal Pointe Park, new acreage, 12.39 acres
o. Old Water Tower site at Flagler and SW 8th Street, Coscan, developer of Cypress Grove Townhouses, landscaped site into a park, 0.23 acres
p. Community Park revised acreage from 67.0 to 71.08 acres based upon Pompano Beach Air Park and Recreational Facilities Plat
q. Highlands Park, 1650 NE 50th Court, 2.87 acres, added after annexation of Pompano Highlands.
r. Unnamed Park at NE 42nd Court & NE 15th Avenue, 2.29 acres, added after annexation of Pompano Highlands.
s. North Pompano Park, 4400 NE 18th Avenue, 20.45 acres, added after annexation of Pompano Highlands.
t. Norcrest Elementary School, 3951 NE 16th Avenue, 6.20 acres, added after annexation of Pompano Highlands.
u. Crystal Lake Middle School, 3551 NE 3rd Avenue, 3.16 acres, added after annexation of Leisureville, Loch Lomond, Kendall Green.
v. Palm View Elementary School, 2601 NE 1st Avenue, added after annexation of Leisureville, Loch Lomond, Kendall Green.
w. Broward County Environmental Land, Crystal Lake Sand Pine Scrub Park, 24.25 acres
x. Broward County Environmental Land, The Jungle in Pompano Highlands, 38.70 acres
y. 220 East Atlantic Park, Atlantic Blvd and Cypress Road, 0.94 acres
z. Cypress Run Alternative School, 5.5 acres
bb. Added the 3.2 acres in Oceanside Park which was missing from the inventory. This was discovered when the 3.37 acres of that 6.56 acre parcel was converted to CF for Fire Station #11 from the Public Beach acreage on October 26, 2010.
cc. Added the 1.8 acres for Canine Corner on October 13, 2010.
dd. Updated park names, added missing parks (Annie Adderly Park, Sanders Park, Lovely Park, NE 16th Street Park, removed duplicate listings, December 2012.
ee. Removed 5.41 acres from Beach Park for land use plan amendment on Pier Parking Lot converting it to Commercial land use, January 2014.
ff. Elks Property was purchased in October, 2017 and is 10.4 acres.

gg. The 4.2 acre Centennial Park (Sample-McDougal House) was added to this inventory.

hh. Removed the Oceanside parking lot 3.2 acres and added the 97 acre Palm Aire Lakes Park which includes approximately 37 acres of land and 60 acres of water, all of which is publicly accessible.

MASS TRANSIT VERIFICATION LETTER
VIA EMAIL

April 11, 2019

James Kahn, AICP
Planner
KEITH
2312 South Andrews Avenue
Fort Lauderdale, FL 33316

RE: Transit Verification Letter – Isle Casino LUPA

Dear Mr. Kahn:

Broward County Transit (BCT) has reviewed your correspondence dated March 20, 2019, regarding the Isle Casino Land Use Plan Amendment (LUPA) located in the City of Pompano Beach for current and planned transit service. The current transit service provided within a quarter mile of the amendment site is limited to BCT fixed route 14 and the City of Pompano Beach Community Shuttle Red route. Please refer to the following table for detailed information.

<table>
<thead>
<tr>
<th>BUS ROUTE</th>
<th>DAYS OF SERVICE</th>
<th>SERVICE SPAN A.M. – P.M</th>
<th>SERVICE FREQUENCY</th>
</tr>
</thead>
<tbody>
<tr>
<td>14</td>
<td>Weekday</td>
<td>5:00a – 11:57p</td>
<td>20 minutes</td>
</tr>
<tr>
<td></td>
<td>Saturday</td>
<td>5:36a – 11:05p</td>
<td>45 minutes</td>
</tr>
<tr>
<td></td>
<td>Sunday</td>
<td>7:40a – 8:09p</td>
<td>45 minutes</td>
</tr>
<tr>
<td>Pompano Beach Community Shuttle Red Route (BCT 705)</td>
<td>Weekday</td>
<td>9:00a – 4:57p</td>
<td>65 - 78 minutes</td>
</tr>
</tbody>
</table>

BCT can accommodate additional transit demand, as described in the Mass Transit Analysis, with planned fixed route bus service to the amendment site.

Please be advised of the following BCT bus stops that are adjacent to or within the amendment site:
- 1111
- 1112
- 1113
- 1114
- 1170

Broward County Board of County Commissioners
Mark D. Bogen • Lamar P. Fisher • Beam Furr • Steve Geller • Dale V.C. Holness • Nan H. Rich • Tim Ryan • Barbara Sharief • Michael Udine
www.broward.org
Specifically, BCT will request ADA improvements and shelter easements for bus stops 1112, 1113, and 4058 located along Powerline Road / SR 814. This request will be made separately as part of the future development or plat review process.

BCT has no objections to this LUPA but recommends that any proposed development on the amendment site be designed to provide safe movement for pedestrians and bicycles including transit connectivity between the existing sidewalk / bicycle network and bus stops.

Please feel free to call me at 954-357-8554 or email me at rhatch@broward.org if you require any additional information or clarification on this matter.

Sincerely,

Ryan Hatch

ARCHAEOLOGICAL & HISTORICAL STRUCTURE LETTER
Ms. Kaitlyn Riquelmy  
2312 S. Andrews Ave.  
Ft. Lauderdale, Florida

Re: DHR Project File No. 2019-3216 / Received by DHR: May 31, 2019  
Requested Review for Cultural Resources for Land Use Plan Amendment Application  
Isle Casino Racing Pompano Park  
777 Isle of Capri Pompano Beach, Broward County

Ms. Riquelmy:

Our office reviewed the referenced project in accordance with Chapters 267.061 Florida Statutes, and implementing state regulations, for possible effects on historic properties listed, or eligible for listing, in the National Register of Historic Places, or otherwise of historical, architectural or archaeological value,

We note that 8BD2206, the Old Pompano Beach Race Track was determined eligible for the National Register of Historic Places (NRHP) by this office and was recorded in 1999 before it was demolished. 8BD2206 was located north of the current parcel.

We have reviewed the proposed project parcel, currently the site of Isle Casino Racing Pompano Park. It is the opinion of this office that it is not eligible for the NRHP. However, we request that since most of the complex will be demolished and most of the buildings and the racetracks are 50 years or older, or close to 50 years, that the applicant record the complex as a historic resource group for our records. This should include stables, racetracks, buildings and any other structures. The Resource Group Form and directions for completing it can be obtained from the FMSF Office at https://www.dos.myflorida.com/historical/preservation/master-site-file/documents-forms/, or by calling 850-245-6440.

For any questions concerning our comments, please contact Robin Jackson, Historic Preservationist, Compliance and Review at 850.245.6496, or by electronic mail at robin.jackson@dos.myflorida.com.

Sincerely,

Timothy A. Parsons, Ph.D.  
Director, Division of Historical Resources and  
State Historic Preservation Officer

Email: DrewGatewood@edc-inc.com

In response to your inquiry of May 30, 2019 the Florida Master Site File lists no archaeological sites and one historic structures in the following parcels of Broward County:

Parcel ID: 4942-03-22-0010, 4942-03-22-0020, 4942-03-22-0021, 4942-03-22-0022, and 4942-03-22-0023 with a quarter mile buffer as shown on the corresponding map.

When interpreting the results of our search, please consider the following information:

- This search area may contain unrecorded archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.
- Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.
- While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.
- Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333.

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,

Cody VanderPloeg
Archaeological Data Analyst
