

PUBLIC NOTICE

September 10, 2025

Proposed Overall Disadvantaged Business Enterprise (DBE) Goal

In accordance with the requirements of 49 CFR Part 26, the City of Pompano Beach hereby notifies the public of its proposed overall **Disadvantaged Business Enterprise (DBE)** goal for federally funded contracts associated with the City's Air Park for the period of FY 2024–2026.

Proposed DBE Goal: 7.3% for the period FY 2024–2026

The goal is proposed to be achieved as follows:

- Race-Conscious: 3.65%
- Race-Neutral: 3.65%

The proposed goal is based on a two-step analysis involving a base figure calculation and adjustments based on other factors influencing DBE participation. The base figure calculation considers the availability of DBEs compared to the entire market of firms providing services and products associated with construction, design, and engineering in Broward County.

For all details of the proposed DBE goal and goal-setting methodology, please visit the following link:
