

HOW TO SIGN UP: Multi-Family and Commercial Properties

Although multi-family and commercial properties are required to connect to reuse, those properties are not eligible for connection through the ICanWater program. Multi-family and commercial property owners are responsible for all connection cost.

For over ten years, the City Ordinance has required that all multi-family and commercial customers connect to the reuse system when reuse becomes available to the property. The City of Pompano Beach Utilities Department sends out a letter notifying customers when reuse becomes available and that connection within 3 months is required, per the City Ordinance.

For multifamily and commercial properties, there are a few steps to keep in mind:

- 1) Hire a licensed plumber to pull the permit from your City's Building Inspections Division
- 2) Contact the City of Pompano Beach Customer Service Department to apply for a reuse meter
- 3) The plumber will do the connection for you (we advise you to get a few different quotes),
- 4) Call your City's Building Inspection Division for inspection after the work is done.

Specifications for the plumbing work are available [here](#).
